EXPERIENCE

Nepal Design Tech Pvt. Ltd, Remote– *Web Developer*

October 2024 – July 2025

As a Web Developer at Nepal Design Tech Pvt Ltd, I led development showcasing the following qualities:

- **Tech Proficiency:** Created and modified web pages utilizing *JavaScript* and *PHP* to implement complex functionalities and data handling systems.
- **Problem Solver:** Leveraged technical skills to develop email functionality and form processing systems, ensuring seamless communication between frontend and backend.
- **Feature Developer:** Built and integrated new features into existing websites using ***JavaScript***, focusing on improving site interactivity and user engagement.
- **Client Focused:** Collaborated effectively with clients to understand requirements and deliver customized web solutions that met business objectives.
- **Stack Developer:** Enhanced development expertise through hands-on experience with both ***JavaScript*** for frontend and ***PHP*** for backend implementations.

Yberri, Frontend Developer Intern

April 2024 - June 2024

- **Developed and Enhanced User Interfaces:** Assisted in designing and implementing user-friendly interfaces using HTML, CSS, JavaScript and React Js. Contributed to improving the overall user experience of the company's web applications.
- **Integrated Firebase:** Acquired experience with Firebase for backend services including authentication, database management, and real-time data synchronization.
- **Worked with APIs:** Implemented and managed API integrations to fetch and handle data from external sources, enhancing the functionality and interactivity of web applications.

SKILLS

React.js | JavaScript | Tailwind CSS | React Query | REST APIs | Context API | Socket.IO | Cloudinary | JWT Auth | Render | Vercel | Git | Material UI

LANGUAGES

English- Fluent

Nepali-Fluent

Hindi-Fluent

EDUCATION

Bachelor in Computer Application, Butwal

2018- 2023

- Learned about basic React.js.
- Learned basic JavaScript and build the projects like Bubble Game, Unlimited Image Search, Todo List etc.
- Learned Tailwind CSS.
- I served as the Joint Secretary of my college's Student Welfare Council, where I diligently fulfilled a variety of roles and responsibilities that includes documenting meeting minutes, assuming the Secretary's duties in their absence and actively engaging with students to address their concerns.

Management (Grade 11 and 12), Kathmandu

Global College of Management (2016-2018)

PERSONAL PROJECTS

Social Media Platform (Facebook-like Web Application)

Built a modern, responsive social media web application with real-time features, focusing on frontend performance and user experience.

Frontend Technologies:

- React JS, Tailwind CSS,
- React Query (Server State Management & API Handling)
- Context API (Global State Management)

Backend Technologies:

- Node JS, Express JS, MongoDB
- Socket.IO (Real-time chat)
- Cloudinary (Image upload & optimization)

Key Features:

- **API Handling with React Query:** Implemented efficient data fetching, caching, background refetching, and state synchronization using React Query.
- **Responsive UI & Styling:** Designed fully responsive and accessible UI using Tailwind CSS with reusable components.
- **Post Feed Management:** Built dynamic post feeds with create, delete, like, and comment functionality, ensuring instant UI updates.
- **Optimistic Updates:** Used React Query for smooth user interactions, especially for likes and comments.
- **User Profile Pages:** Created profile views that display user-

specific posts and data with protected routing.

- **Real-Time UI Updates:** Integrated Socket.IO to reflect live chat and message updates on the frontend.

Performance & UX Optimization:

- Reduced unnecessary re-renders using proper component structuring and server-state separation.
- Improved perceived performance through caching, pagination, and infinite scrolling techniques.

Authentication & Security (Frontend Perspective):

- Implemented secure login, signup, logout, and route protection using JWT-based authentication.
